Overview

Web developer and graphic designer with 10+ years of experience in the creative industry. Experienced working in a remote team environment, managing clients and project expectations. Able to communicate clearly with team members, creative directors and clients regarding aspects of web development and marketing.

Strong background in graphic design, interactive web content, mobile and desktop UI/UX. Experienced with working with developers in fast paced creative environments. Able to clearly communicate how the development process can impact the design process and provide solutions to both.
